MSc PETROLEUM GEOSCIENCE

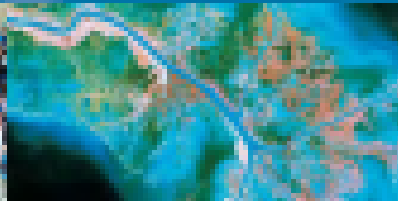

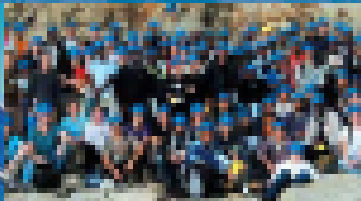

Department of Earth Science and Engineering

DISCOVER THE EARTH IN THE HEART OF LONDON

- This is a truly excellent course, which must be one of the best internationally.

Professor Joseph A. Cartwright Professor of Geology, University of Cardiff

Well-trained petroleum geoscientists are much in demand for their skills in exploring and exploiting petroleum resources. This MSc Petroleum Geoscience course is for earth science graduates wishing to embark on a career as petroleum geoscientists, and those already working in the industry who wish to enhance their skills. The course is closely tailored to the needs of industry, with leading petroleum companies providing data to support teaching and also work placements. It can be a springboard to a successful career or to further research.

For further details on this one year full time course and our departmental scholarships please contact: Course Director, MSc Petroleum Geoscience, Department of Earth Science and Engineering, Imperial College London, South Kensington Campus, London SW7 2AZ.
