

MSC PETROLEUM GEOPHYSICS

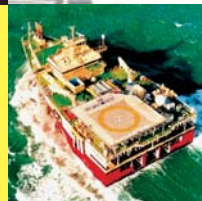

Department of Earth Science and Engineering

EXPLORE THE EARTH. LIVE IN LONDON.

“A top class masters course
at a world class institution.”

John Brittan Head of Processing Technology at Petroleum Geo-Services

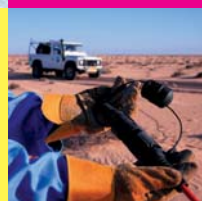

The **MSc Petroleum Geophysics** course is designed for science or engineering graduates who are looking to embark on a career in petroleum geophysics, as well as those already working in the industry who wish to enhance their technical skills and qualifications. This course is closely tailored to the needs of industry and has a particular emphasis on the application of geophysical tools for hydrocarbon exploration and production. It is suitable for **physicists, electrical engineers, computer scientists** and others including **earth scientists**, with a **strong mathematical background**, and leads to the MSc degree of Imperial College.

THE BEST
SCIENCE
COURSES ON
THE PLANET
