

PANterra

RECRUITMENT

PanTerra Recruitment is a subsidiary of PanTerra Geoconsultants, a fast growing geoscience consultancy group in The Netherlands. PanTerra Recruitment provides staffing services to the international Oil & Gas industry. We emphasize teamwork, creativity and achievement in an employee-friendly and professional environment.

For the exploration department of one of our clients in the Netherlands, we are looking for a

Senior Production Geologist (c382)

In this position your primary objective is to identify development opportunities, as well as to enhance recovery from existing productive reservoirs. You will apply your skills and use state of the art tools to map and describe reservoirs, participate in volumetric and reserves estimations, and participate in a production optimization team.

Qualifications

- university degree in geology or related discipline
- at least 10 years experience in the industry
- strong background in sedimentology, structural geology and field development planning

Please check our website www.panterra.nl for more information and to apply.
