

PANterra

GEOCONSULTANTS BV

PanTerra Geoconsultants B.V. is a fast growing geoscience consultancy group in the Netherlands providing practical solutions for the international oil & gas industry. PanTerra has three operating divisions: integrated subsurface evaluations, laboratory services and recruitment services. PanTerra Geoconsultants emphasizes teamwork, creativity and achievement in an employee-friendly and professional environment.

Carbonate Sedimentologist P385

For our office in Leiderdorp, we are looking for a (Senior) Carbonate Sedimentologist/Petrographer to complement our Subsurface Evaluation team. This team covers the full hydrocarbon resource life cycle from exploration to development, providing our clients the technical basis for sound business decisions. As a Carbonate Sedimentologist/Petrographer with PanTerra, you will provide integrated reservoir studies on carbonate rocks.

Requirements

- MSc or PhD in Geology or related science
- At least 7 years of sedimentological experience in the industry
- Strong experience in core logging and petrographic analysis of carbonate rocks
- Knowledge of Middle East geology is essential

**Please check our website for more information or to apply:
www.panterra.nl**

As part of our team you will enjoy the high living standards and the mild climate of the Netherlands. PanTerra's office is located very close to the small picturesque city of Leiden, which has a beautiful historic city centre with canals, museums, many restaurants and shops.
