

PANterra

RECRUITMENT

PanTerra Recruitment is a subsidiary of PanTerra Geoconsultants, a fast growing geoscience consultancy group in The Netherlands. PanTerra Recruitment provides staffing services to the international Oil & Gas industry.

For a leading oilfield services provider, we are looking for a

TIS Data Loader and Administrator (C389)

The position is based in the Netherlands and your tasks will be:

- Manage disk space, regular project archiving
- Monitor and maintain PARS/Migrator HSM system
- Load SEG-Y and other format seismic data to TIS environment
- Unload data from 'Seismic Store' directly to the operational system

Our client is searching for candidates skilled in seismic data management activities, processing and acquisition workflows and geoscience domain knowledge. Other requirements are:

- Excellent UNIX/Linux skills
- Data loading, preferably in Seisworks, Petrel and 123di environment
- Scripting skills are an advantage

Please check our website www.panterra.nl for the detailed job description and to apply.
